TO : Mr. Marshall

DATE: July 17, 1963

FROM : John Martin

SUBJECT: Demonstrations in Charleston,  
South Carolina

On July 16, 1963 the following demonstrations occurred:

At about 10:35 a.m., 94 Negro youths demonstrated on upper King Street. At about 11:30 p.m., 300 Negro adults gathered and sang songs and prayed at City Hall.

At about 12:15 p.m., about 94 Negro youths marched to Condon Department Store and demonstrated there. Around 200 p.m., 204 Negro youths marched from Emanuel Church and demonstrated at the Ft. Sumter Hotel. During the above demonstration there was only one arrest and that was of one Negro man for a traffic violation.

At 10:50 p.m. there were about 400 Negro demonstrators gathered together on the streets of Charleston in the Negro section. They were asked to move on and, according to the police, refused and shortly thereafter bricks were thrown at police officers and one officer was wounded. Seventy-three demonstrators were arrested shortly after this time. Mr. Carter, who is the local attorney for the NAACP, said that he and Mr. Cook and Mr. Brown, two other NAACP officials, attempted to see the police chief to arrange bond for the group at 12:30 p.m. last night. He states that they were surrounded by police officers and ordered to leave the police department. Local police were reportedly reinforced by a number of state highway patrolmen during the early hours today.

June 19, 1963

Dear Dr. Watkins:

Thanks for your letter of June 15 regarding the demonstration on last Friday in front of the Justice Department.

It has been shown in recent weeks that maintaining communications with all parties in the civil rights crisis is one of the most important factors in reaching satisfactory solutions. For that reason, I welcomed the opportunity to talk with demonstrators here.

I do feel that our record at the Department of Justice is a good one, and the facts regarding it are worth stating to those interested.

Again, thanks for taking the time to write. I appreciate having the benefit of your views.

Sincerely,

Robert F. Kennedy

Demonstrations in Williamston,  
North Carolina

Mr. Marshall has just sent you a memorandum about Williamston, North Carolina, and asked what you know about it. On Monday, October 21 I received a call from Golden Frinks who works with SCLC in Williamston.

Williamston is near Rocky Mount; is a town of 6,700, 48 per cent of whom are Negroes. The county is Martin County, population 37,139. Negro population 52%. There are 8,500 whites registered; 1,800 Negroes.

Demonstrations have been going on there since June 30, protesting against segregation, seeking specifically fair employment, desegregation of the schools and a declaration by the city that it is opposed to every aspect of segregation.

I believe that the demonstrations continued for 32 days and there were 190 arrests. In August things cooled down and there were some discussions but they accomplished nothing, and during the last few days demonstrations started again. Apparently, there were some Negroes standing on federal property on the grass just off the sidewalk, not doing anything, and the police arrested 18 of them. Some of the girls were kicked; one man was badly beaten, according to Frinks. Bond is set at \$500. There were also some 57 juveniles arrested. According to Frinks, what they were doing was standing on federal property singing freedom songs.

cc: Assistant Attorney General ✓

# ATTENTION

Another of the White Man's property rights or privileges has been surrendered by the Weak-Kneed Public Officials and the Busy-Body "Secret Committee."

All of the Movie Theaters are now integrated, and presently the Lucas, Weis, Avon and Savannah Theaters will smell like the Negro Dunbar and Star Theaters, with Litter, Trash and Filth strewn about the Floor and Chairs.

The Theater Owners are disregarding your right of "CHOICE" in the matter, and care not what your desires are. They have given the Negro his "CHOICE," which is to integrate with you and your children in a Dark Area. — What you want dosen't matter.

If you are against such tactics, then you should seek entertainment for your Children elsewhere, for the Safety of their person and morals.

SUBJECT: Demonstrations - Williamston, North  
Carolina

Jay Moore of the National Council of Churches in New York City called regarding Williamston. He called to pass some information on to us. He said that the National Council's man, Art Thomas, whose judgment he believes is sound, has been in Williamston recently. This morning Thomas was at a meeting of CORE in Durham, North Carolina. The decision was made to make a maximum push on demonstrations in eastern North Carolina with Williamston as the prime target.

Mr. Moore did not know what specific plans they had except that there is a mass demonstration planned for Sunday at the Voice of America transmitter near Williamston. Mr. Moore said that he used to work with Voice of America and that his understanding is that the transmitter is surrounded by a fence and there are armed guards. He said that as far as he knows there was not going to be any attempt to get through the fence but that his concern was that because the guards were local they might get excited and something might happen.

He said the state police are in Williamston and as far as he knows have been doing a pretty good job.

He said that if he hears anything further he will pass it on to us.
